CALL FOR PAPERS

2023 IEEE INTERNATIONAL CONFERENCE ON DIGITAL HEALTH

JULY 2-8 2023

CHICAGO, ILLINOIS USA

Hybrid Event

https://conferences.computer.org/services/2023
https://conferences.computer.org/icdh/2023

IEEE International Conference on Digital Health (ICDH) is a prime international forum for both researchers and industry practitioners to exchange the latest fundamental advances in the state of the art and practice of digital health technologies, emerging research topics, and the future of digital health. ICDH aims to bring together leading researchers, community leaders and visionaries from academia and industry, end-users, and healthcare professionals, in the area of digital health to share their research, practical experience, and visions of the future of sustainable health and social care transformations. Significant opportunities of research and development of the digital health ecosystem have been leading to new tools, techniques, analysis and automation of health care delivery models seeking improved outcomes for all related stakeholders including the patients and the health providers.

General Chair:
Sheikh Iqbal Ahamed, Marquette University

Program Chairs:
Hossain Shahriar, Kennesaw State University
Graziano Pravadelli, University of Verona

Full list of topics of interest are available on the IEEE ICDH website:
https://conferences.computer.org/icdh/2023/cfp
